

1. CHIEF ENGINEER

Reporting to the Deputy General Manager, the successful candidate will be responsible for;

- ‡ Overall co-ordination and control of all maintenance / engineering work in the Hotel including routine servicing and maintenance of machinery and equipment.
- ‡ Initiating and improving the routine maintenance programmes in the Company.
- ‡ Responsible for budgeting and control of the Engineering budget including coming up with strategic plans for the department.
- ‡ Responsible for all the construction and contract work of the Company.
- ‡ Liaison with the Purchasing department to source for parts required for servicing equipment and construction.
- ‡ Responsibility for an Engineering team of over 40 staff.
- ‡ Training, staff development and career enhancement in-house with the HR team.
- ‡ Responsible for all renovation and improvement of the buildings and equipment.
- ‡ Responsible for all new projects and project teams to prepare for the expansion and future growth of the Company.

The position is challenging and calls for a dynamic, confident, aggressive and forward-thinking person with the following attributes;

- Aged 35 – 42 years
- Be holders of a degree in mechanical or electrical/electronics engineering from a recognised University.
- Have at least ten (10) years management experience in plant and equipment maintenance dealing with electricals and electronics.
- Have a working knowledge of boilers, mechanical installations, refrigeration, construction, plumbing and carpentry.
- Be Computer literate and must have worked with computers.
- Previous work experience in the hospitality set up would be an added advantage.

A Competitive salary commensurate with qualifications and experience will be offered to the successful candidates. Applications accompanied by a detailed CV and copies of relevant certificates and testimonials from applicants who meet the above qualifications should be sent to the address below to reach them by **Friday March 15, 2024**.
